

St Mary's Making a Difference Award Scheme

Guidance notes

1. Purpose – what's the scheme for?

“Making a Difference” is St Mary's employee recognition scheme that celebrates the excellent contribution staff make to the success of the University. Introduced in 2015, the scheme enables timely and meaningful recognition to occur for work that is significantly above and beyond expectations, and also reflects the University's core values:

Inclusiveness	We celebrate differences, recognising that everyone is born with a unique identity. St Mary's is a place where students and staff can reach their full potential and make a positive contribution to society.
Generosity of Spirit	Our generosity of spirit sets us apart. It can be seen in the encouragement, collegiality, empathy, helpfulness and service to be found across the University.
Respect	We respect everybody. We treat everyone as we ourselves would want to be treated.
Excellence	We strive to be the best at everything we do. We seek professionalism through setting high standards and continuous improvement in all our practices and work.

By using St Mary's values, the scheme supports the University's aim to create a culture and an environment in which staff feel valued and where going the extra mile is noticed and appreciated by one member of staff to another. It is not designed to provide additional reward to staff who are performing at a fully satisfactory level or to normal expectations for the role.

This scheme forms part of a suite of University initiatives designed to recognise the excellent contributions of staff. Details of these initiatives can be found on StaffNet, and include:

- The Outstanding Performance Awards
- Long Service Awards

2. Examples of what constitutes “Making a Difference”

Examples of how an individual can “make a difference” are:

- Adding value by having a direct and positive impact on the University, Faculty or Department’s strategic objectives that are over and above that expected of their role;
- By helping others in ways that are an inspiration;
- By going the extra mile to achieve the best outcome i.e. not just settling for “OK”;
- By proactively delivering a better quality of service to students, colleagues or stakeholders that exceeds their needs and expectations.

3. Scope – who is eligible for nomination?

The scheme is applicable to all staff employed on St Mary’s contracts of employment who are in grades A – L (covered by the National Framework Agreement and the London Living Wage), regardless of working hours. The scheme will operate across all faculties and departments of the University.

4. Who can nominate?

Managers

Managers can nominate a staff member for work carried out over and above expectations. Completed forms should be sent to the HR Helpdesk (hrhelpdesk@stmarys.ac.uk)

Peer-to-peer

Colleagues can also nominate other colleagues as a thank you for help or assistance they may have received beyond the call of duty, and which truly demonstrates St Mary’s values - [Make a peer-to-peer nomination](#)

6. What does a nominee receive?

- A congratulatory letter
- Nominees will be mentioned at the VC Reports, and also in the Staff Newsletter
- Nominees and nominators will be invited to a buffet lunch hosted by SLT, held twice a year

7. Recording, monitoring and reviewing the scheme

The University will take steps to ensure that this scheme is applied fairly, equitably and consistently across all areas. It will also review the scheme regularly, to ensure it remains “fit for purpose”

Date reviewed: December 2020

Reviewed by: Rewards and Benefits Manager

All applications made under the Making a Difference Award scheme are administered by Human Resources. Human Resources reserves the right to query applications. This will ensure the scheme remains fair and equitable.

This scheme does not form an entitlement to staff and may be withdrawn or amended without notice.
