## FA Women's High-Performance Football Centre Newsletter

## Welcome to the November 2023 edition of the FA Women's High- Performance Centre newsletter

October saw the launch of the new FA Women's National League Club Placement Programme, which aims to support coaches from underrepresented groups gain experience working within clubs in tiers three and four of the women's pyramid, in the hope of leading to opportunities further down the line. The programme has been developed by The FA to look to increase the diversity of the workforce operating within the game currently. Ten coaches from across the country have been paired with clubs in their region. Within the St Mary's University region, coaches have found placements at Chatham Town, Chesham United, Fulham FC, London Bees, MK Dons and QPR. We thank the clubs for their participation in this season's programme.

(1.30pm KO)

8th November

**St Mary's University 2s** vs Queen Mary University 1s  
(1.30pm KO)

ETC Leads and club representatives from across the region came together at St George's Park to share good practice, before watching the U15s international between England and Ireland.

The club representatives from ETCs, including Arsenal, Bedfordshire FA, Cambridge United and Peterborough United, came together to discuss the importance of observation in relation to providing feedback.

For more information on potential coaching opportunities within the girls' ETC programmes in your area, please email [craig.taylor@stmarys.ac.uk](mailto:craig.taylor@stmarys.ac.uk) for a connection into your nearest club.
